

As you know, last week the province communicated an extension to the stay-at-home order and further restrictions to mitigate the spread of COVID-19 transmission in Ontario.

Late this afternoon, the Recovery Secretariat sent an email to ensure we are all aware of new guidance communicated by the [SCJ](#) and the [OCJ](#).

### **Information Regarding Vaccinations:**

The planning and distribution of vaccines in Ontario remains fluid and has continued to evolve. For example, in addition to the recent announcement expanding vaccine availability in [hotspot postal code locations](#), [yesterday the province announced](#) it would offer 24/7 COVID-19 vaccinations for individuals aged 40 and over at 20 pharmacy locations, with the majority located in hot spot communities.

All eligible individuals can find a local pharmacy location offering vaccines through [Ontario.ca/pharmacycovidvaccine](https://ontario.ca/pharmacycovidvaccine).

To make sure you have the most up-to-date information on vaccine eligibility, the Recovery Secretariat continues to encourage you to monitor your [local Public Health Unit](#) for details about when and how to get a vaccine. Everyone is encouraged to access their vaccination at the earliest opportunity that is offered to them, by their local public health unit.

Finally, the Recovery Secretariat asks everyone to limit their attendance to a courthouse or MAG facility to only essential matters, which would include attending work as scheduled as an essential worker and, if you must attend, to please diligently follow the health and safety protocols that are in place including: frequently washing your hands, wearing your source control face covering or PPE appropriately, and maintaining physical distancing wherever possible.

And very importantly, if you're feeling sick – stay home.

Please also complete the online COVID-19 Active Screening Entrance Questionnaire in advance of coming to a courthouse or MAG facility. By doing so, you will know before leaving your office or home if you should or should not

enter a courthouse or MAG facility. The questionnaire can be accessed online at the following links:
