The Recovery Secretariat has provided FOLA with an update on phase 3 of the reopening of courtrooms to in-person proceedings. Below you will find the target readiness dates for phase 3 locations. As a reminder, this phase of work includes the preparation of additional courtrooms in locations which have already resumed in-person appearances and select new satellite court locations.

It is important to note that these are the target readiness dates based on the information available today. The process of readying a courtroom with the necessary precautionary measures relies on a number of processes and factors, including the availability of contractors and materials to install plexiglass barriers and other control measures. Because of the potentially evolving nature of the schedule below, please note that changes in one location would likely impact proposed reopening dates in other locations. If any significant changes do occur, the Recovery Secretariat will provide an updated schedule.
